

Seasonal Checklist

Just a general guideline. Steps can be adjusted as needed or desired

Spring (Mothers Day)

- Turn sprinkler system back on
- Start watering
- Fertilize & Pre-Emergence (before water)
- Aeration (or Fall - only once a year)
- Plant annuals

Summer (Fathers Day)

- Increase watering schedule
- Fertilize lawn (2 times during summer)

Fall (Labor Day)

- Decrease watering schedule
- Aeration (or Spring - only once a year)
- Dead-head perennials
- Pull annuals

Winter (Columbus Day)

- Winterize system (*follow either Culinary or Secondary steps below—depending on your system*)

If you have a Culinary Water System

- Turn sprinkler timer to **OFF**
- Turn off **stop & waste valve**
- Blow out sprinkler system
- Blow out filter (if present)
- Open test ports on backflow and drain water
- Remove backflow and store indoors

If you have a Secondary Water System

- Turn sprinkler timer to **OFF**
 - Turn off **secondary water meter**
 - Blow out sprinkler system
 - Blow out filter (if present)
-
